*Interim Coordinator of Facilities*

To: Principals, Faculty and Parents  
From: Steve Desy ([sdesy@abschools.org](mailto:sdesy@abschools.org))  
Date: 2022-2023 School Year  
Reference: Asbestos Hazard Emergency Response Act (AHERA)

On October 22, 1986, President Reagan signed into law an amendment to the Toxic Substance Control Act requiring schools to determine the presence of asbestos containing building materials in all school buildings. That amendment, called the Asbestos Hazard Emergency Response Act (AHERA) required that all school buildings be visually inspected by accredited inspectors and that bulk samples of suspected materials be taken where the material was not assumed to be asbestos. It further required that management plans be created for each individual building and that the maintenance and custodial personnel receive training. The plan must be implemented, and the training must be completed by July 9, 1989. This document is the Asbestos Management Plan which provides the means and the methods to effectively deal with asbestos containing building materials.

All phases of asbestos inspection and management planning are reported in this plan including response action strategy, priorities, scheduling of abatement activities, and coordination of personnel and evaluation of results. The plan has an additional function as a reporting document to that State. At the local level, the plan must be made available for general review by the school district.

Please refer to the AHERA Management Plans for detailed information about each school. A copy of the Acton-Boxborough Regional School District Asbestos Management Plan is available in the main offices of the Blanchard and Conant Schools as well as the Administration Building. Plans are also available in the District Facilities Office during regular school hours. Inquiries regarding the management of asbestos-containing materials in our schools should be directed to me at [sdesy@abschools.org](mailto:sdesy@abschools.org).

Please feel free to call me if you have any questions regarding this memo.

Regards,

Steven Desy  
Interim Coordinator of Facilities
