# Class-Size Guideline Subcommittee Presentation and Recommendations 

Presented to:<br>Boxborough School Committee

March 10, 2011

## Subcommittee Members

- Curtis Bates, Superintendent/Principal/Curriculum Dir
- Mary Brolin, Chair, Boxborough School Committee
- Christine Doucette, Parent Representative
- Patricia Harris, Teacher Representative
- Susan Kenyon, Parent Representative
- Kate McMillan, Teacher Representative
- Maria Neyland, Boxborough School Committee

■ Tina Stevens, Clerk, Boxborough School Committee

## Our Purpose:

- Make recommendations regarding class size guidelines for Boxborough School District
- Update class size projections through the 2015/2016 school year

## Background

- Declining enrollment
- 5-year strategic plan
- Reductions in classes
- Tight budgets and economic downturn
- Varying concerns within Blanchard and Boxborough communities

## Process

- Review literature on optimal class sizes
- Conduct parent survey for input
- Conduct teacher/staff survey for input
- Gather data on policies/procedures in other MA school districts
- Review 2007 Lincoln report
- Review literature on strategies to work with various class sizes
- Update five-year enrollment projections

## Findings: Class Size Literature

- Smaller (<18) \& medium (18-24) class sizes are better than larger (25+) class sizes
$\square$ Tennessee/Wisconsin studies showed academic achievement higher for K \& 1 for smaller vs larger classrooms
$\square$ Effects larger for disadvantaged students
$\square$ Ready \& Lee (2006/2007) demonstrate medium sizes also beneficial; only exception is $1^{\text {st }}$ grade literacy, where smaller classes prevailed

## Findings: Class Size Literature

- Quality of the teachers more important
- Small/Medium beneficial only if instruction in classroom \& interaction with child/family changes
- Community must be willing to make trade offs
- Studies suggest that smaller classes are not cost effective

## Findings: Parent Survey

- Over 200 parents (out of 344 families) responded; all grades represented with greatest number in $2^{\text {nd }}$ and $5^{\text {th }}$ grades
- Highest satisfaction in $\mathrm{K}, 1^{\text {st }}, 5^{\text {th }}, 6^{\text {th }}$ grades, corresponding to lowest class sizes
- Lowest satisfaction/highest concern in $2^{\text {nd }}$, $3^{\text {rd }}, 4^{\text {th }}$ grades, corresponding to highest class sizes

## Findings: Parent Survey

## Satisfaction by Grade

| Grade | 2010-2011 <br> class sizes <br> (as of 1/1/11) | Completely <br> or Mostly <br> Satisfied | Concerned or <br> Dissatisfied |
| :--- | :--- | :---: | :---: |
| Kindergarten | 3 classes of 17 | $87.5 \%$ | $12.5 \%$ |
| First | 3 classes of 18 | $88.3 \%$ | $11.7 \%$ |
| Second | 3 classes of 22-23 | $65.4 \%$ | $34.6 \%$ |
| Third | 3 classes of 22-23 | $61.0 \%$ | $39.0 \%$ |
| Fourth | 3 classes of 23-24 | $32.5 \%$ | $67.5 \%$ |
| Fifth | 4 classes of 20-21 | $84.9 \%$ | $15.1 \%$ |
| Sixth | 4 classes of 17-20 | $97.1 \%$ | $2.9 \%$ |

## Findings: Parent Survey

- Those who were satisfied with class size attributed their satisfaction to:
$\square$ Adequate individualized attention
$\square$ Teacher expertise
$\square$ Right "mix" of kids, so numbers not a problem
■"Reasonable numbers" (17-22) - would feel differently with increased numbers

## Findings: Parent Survey

- Those who were dissatisfied with class size included:
$\square$ Inadequate individualized attention
$\square$ Challenge for teachers to meet needs of every learner at all levels
$\square$ Perceptions that less content was covered
$\square$ Student behavior/classroom management a challenge

## Parents' Anticipated Impacts of Larger Classes

## Findings: Parent Survey

- 101 parents offered additional comments or suggestions to the School Committee. Multiple suggestions focused on the following:
$\square$ Utilize parent volunteers, donated goods \& services more effectively
$\square$ Community, Board of Selectmen and School Committee should place highest priority on school quality - tax \& allocate funds as needed
$\square$ Increase number of qualified classroom aides
$\square$ Explore structural/administrative options such as regionalization, unionization, alternative class groupings etc. as savings measures

## Findings: Teacher Survey

- 29 teachers/staff responded, representing all grades and subject areas
- Teachers definitely expressed a concern about larger class sizes, particularly in the primary grades (K-3)
- Although concerned about academics, they stressed that class size matters more when there are more students with behavioral issues and diverse educational needs

## Findings: Teacher Survey

- Teachers who had experienced large classes in the past noted:
$\square$ Less individual attention
$\square$ Changes in classroom dynamics
$\square$ Challenges dealing with behavioral issues and diverse educational needs
$\square$ Difficulties consistently scheduling and managing volunteers
$\square$ Benefits of classroom Aides

## Teachers' Anticipated Impacts of Larger Classes

## Findings: Teacher Survey

- Teachers anticipated that job satisfaction would remain fairly consistent despite small changes in class sizes
- Three out of four (77\%) found Aides to be beneficial, especially for:
$\square$ Individual/Small group instruction
$\square$ Lower grades (K-2)

## Findings: Teacher Survey

- For larger classes, teachers recommended:
$\square$ Having Aides available
$\square$ Grouping students across teachers for math and maybe reading (Response to Intervention)
$\square$ Peer-to-peer sharing on ways to work more efficiently
$\square$ Using volunteers creatively
$\square$ Differentiating instruction

## Findings: Teacher Survey

- Teachers identified the following essential skills students must learn at home and school:
$\square$ Behavioral needs must be addressed as early as possible
$\square$ Students should learn developmentally appropriate classroom behaviors and social skills
$\square$ Students need to be prepared in foundations of reading, writing and math

## Findings: Other School Districts

- 46 districts on listserv responded to type of class size requirements*
$\square 36 \%$ have written guidelines
$\square 17 \%$ set class limits in teachers' contracts
$\square 15 \%$ have policies (e.g., smaller in lower grades)
$\square 15 \%$ have no written guidelines
$\square 17 \%$ did not indicate
* Responses not necessarily representative, 46 responders may differ from total group

## Findings: Other School Districts

| Grade | K | $1^{\text {st__2nd }}$ | $3^{\text {rd }}$ | $4^{\text {th }}$ | $5^{\text {th }} 6^{\text {th }}$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Boxborough | 20 | 22 | 22 | 24 | 24 |
| \% Below | $26 \%$ | $37 \%$ | $21 \%$ | $35 \%$ | $18 \%$ |
| \% Same | $28 \%$ | $28 \%$ | $20 \%$ | $24 \%$ | $28 \%$ |
| \% Above | $31 \%$ | $20 \%$ | $39 \%$ | $21 \%$ | $28 \%$ |
| \% No Guidelines | $15 \%$ | $15 \%$ | $20 \%$ | $20 \%$ | $24 \%$ |
| \% NA | -- | -- | -- | -- | $2 \%$ |

## Findings: Lincoln 2007 Report

- Following a similar process, the Lincoln study committee recommended:
$\square$ Reducing class sizes from 22 to 20 in $1^{\text {st }}$ grade
$\square$ Reducing class sizes from 24 to 22 in $3^{\text {rd }} \& 4^{\text {th }}$ grades
■ Additional cost estimated at \$100,000
- Lincoln reports that they struggle to not exceed these maximum guidelines

## Findings: Class Room Strategies

 Strategies characterized as good practices regardless of class size- Adapt physical space
$\square$ Have less furniture and excess materials
$\square$ Find creative storage solutions
- Encourage teacher/staff support
$\square$ Hold positive views \& use creative approaches
$\square$ Use volunteers, student buddy system
$\square$ Increase collaboration

## Findings: Class Room Strategies

- Change daily routine
$\square$ Teachers circulate around classroom more
$\square$ Use more group work, varied instruction
$\square$ Use student "experts"
- Modify student evaluation/assessment
$\square$ Involve students more/self-assessment (older)
$\square$ Use more frequent, shorter assessments
$\square$ Use peer evaluation of group work
$\square$ Use alternative assessments (e.g., "ticket to leave")

## Findings: Enrollment Projections

FIVE YEAR ENROLLMENT PROJECTIONS
BLANCHARD MEMORIAL SCHOOL
(Rev. 2/11/11)

|  | $2008-09$(as of $6 / 1 / 09$ ) |  | $\begin{gathered} 2009-10 \\ \text { (as of } 5 / 1 / 10 \text { ) } \end{gathered}$ |  | $\begin{gathered} 2010-11 \\ \text { (as of } 2 / 1 / 11 \text { ) } \\ \hline \end{gathered}$ |  | 2011-12 |  | 2012-13 |  | 2013-14 |  | 2014-15 |  | 2015-16 |  |

| Total Classes |  | 27 |  | 25 |  | 23 |  | 22-23 |  | 21-22 |  | 20-21 |  | 19-21 |  | 19-21 |
| Total Students | 508 |  | 484 |  | 466 |  | 434 (est.) |  | 406 (est.) |  | 404 (est.) |  | 382 (est.) |  | 339 (est.) |  |

Note: Class Size Guidelines: K=20; 1-3=22; 4-6=24
Blue Numbers - based on Peter Ashton's Enrollment Projections: December 2010 report
Red Numbers - based on Real Numbers: February 1, 2011 report
Yellow Numbers - based on Census: December 2010
(C) - Choice Students

Total Number of Students Does Not Include Integrated Preschool (20)

## Recommendations

- Change guidelines so that $1^{\text {st }}$ and $4^{\text {th }}$ grades regrouped
$\square$ Recommended:

$$
\mathrm{K}-1^{\text {st }}-20 \quad 2^{\text {nd }}-4^{\text {th }}-22 \quad 5^{\text {th }}-6^{\text {th }}-24
$$

$\square$ Current:

$$
\mathrm{K}-20 \quad 1^{\text {st }}-3^{\text {rd }}-22 \quad 4^{\text {th }}-6^{\text {th }}-24
$$

- Consider staffing to best address behavioral needs of students

## Recommendations

- Continue to use classroom Aides strategically
- Support professional development on creative strategies for managing various class sizes
- Share parent education resources on classroom and home strategies working with children/students with behavioral concerns

## Recommendations

- Adopt the updated enrollment projections through school year 2015/2016 stated herein
- Continue to monitor trends and update the projections as needed

## Questions?
